## HAN Coordinators' Daily Report

September 16, 2001

### To All HAN Coordinators:

On behalf of the CDC Health Alert Network Command Center, we thank each of the HAN Coordinators for your continued assistance.

To ensure that we stay in touch electronically each day, we will continue to inform you of activity at the HAN Command Center approximately every 24 hours.

While there have been no more Alerts to report, the CDC Health Alert Network Command Center has heard from many State HAN Coordinators. We have received positive feedback and encouragement. We thank you for the incredible job that you are doing within the Network during this critical time. We continue to solicit your feedback, comments, and suggestions for preparedness and communications.

The Command Center can be reached by E-mail at [healthalert@cdc.gov](mailto:healthalert@cdc.gov) or by phone at **770-488-8251**.

CDC's 24/7 Emergency Hotline is **770-488-7100** and access to CDC via the Web can be gained at [www.hhs.gov](http://www.hhs.gov).

*The Centers for Disease Control and Prevention (CDC) protects people's health and safety by preventing and controlling diseases and injuries; enhances health decisions by providing credible information on critical health issues; and promotes healthy living through strong partnerships with local, national and international organizations.*
